

## Oracle CPU patch April 2006 issues installation instructions

CPU April 2006 for 10.2.0.2 contains 1 fix related to sql injection of a sys package. Exploits for this issue have been released before the official patch release. The exploit works even when the patch has been applied. To mitigate the risk the following action has been taken:

- **revoke execute on sys.dbms\_export\_extension from public;**
-
