Minutes 03 May 07

- Phone:
 - ◆ **FNAL:** Eric
 - ◆ **BNL:** Carlos, Iris
 - ◆ **CNAF:** Barbara
 - ◆ **GridKa:** Andreas, Doris
 - ◆ **SARA:** Alexander
 - ◆ **Triumf:** Jim Li
 - ◆ **ATLAS:** Sasha, David Front, Richard
- CERN:
 - ◆ **3D:** Dirk, Eva, Zbigniew, Gianni
 - ◆ **POOL:** Ioannis
 - ◆ **ATLAS:** Gancho, Florbela
 - ◆ **LHCb:** Marco
 - ◆ **Taiwan:** Dave
- General announcements:
 - ◆ NDGF has already sent the list of database services (see last minutes): Please send a list of the Oracle deployments at the sites to Dirk.
 - ◆ Network problems at CERN: protocol negotiation. Eva working on it together with the network people.
 - ◆ CHEP sessions on Vancouver. Dirk asks for people who plans to go. There is a BOF session planned a part of the CHEP sessions.
 - ◆ Backup and recovery exercise: Barbara offers hosted it at CNAF. Date proposed: 12 and 13 of June. Agenda to be followed up with Barbara. Please let us know of any inconvenience with the date.
 - ◆ Availability of databases on wiki. Zbigniew has developed a prototype to introduce the planned interventions directly by the sites.
 - ◆ Tickets through GGUS: connection problems tickets disabled. During next weeks we should check if the assignment is correct. If not, resend to ROC so it can be redirected. Tickets latency is about a couple of hours.
- Sites status
 - ◆ Tier 0 network problems - see above
 - ◆ Triumf iperf tests in order to find and fix the network problems
 - ◆ CNAF: intervention 14 may – maintenance
 - ◆ BNL: running smooth, working on the monitoring of the cluster: ganglia, nagios. GGUS ticket latency was 3 hours
 - ◆ SARA: one of nodes went down during the morning: full file system. Propagation is reporting a problem with the listener on instance number 1 and cannot connect to the destination queue. Eva just moved the queue and the apply to the available node.
 - ◆ GridKa: no interventions, ORA-600 error on the database, Andreas will look on metalink.
 - ◆ Taiwan: test with the backup and recovery, working on monitoring
- Experiment status
 - ◆ ATLAS:
 - ◇ Preparation to add BNL to the production setup ongoing. We will wait until the network problems are fixed.
 - ◇ NDGF was tested during 24 hours very successfully.
 - ◇ Scalability test will start end of May – new release of the sw. Client boxes already arranged. * Readback jobs running by Richard: some problems with the queries – being analyzed. Optimizator seems to not pick the right execution plan: full

index/table scans. General application problem, not related to the destination sites.

- ◆ LHCb:
 - ◇ Waiting for PIC to be joined. Eva has already requested access to PIC LHCb database from the downstream database, but Luis is on holidays.
 - ◇ Sw to submit jobs from the grid is ready
- Stress testing of Tier 1 replicas with ATHENA
 - ◆ David Front's presentation – slides available on the agenda.
- Frontier/CMS
 - ◆ No news from the CMS side.
