Obsolete topics in the Persistency twiki

Several topics which had been added in the past to this or previous twikis have become obsolete over the years. While most of these obsolete topics are still in the main twiki pages or have been deleted, a few have been moved to a special section of this twiki, by declaring them as children of this standalone ObsoleteTopics page. If a page in this twiki becomes obsolete, please rename it (so that its name starts with "OLD") and move it to the obsolete section by setting its parent topic to the ObsoleteTopics page. Note that the ObsoleteTopics page has no parent.
