Beam dynamics followups.....	1
------------------------------	---

Beam dynamics followups

Assigned to	Start date	Description	State	Result
Main.BDgroup	2008-11-13	End-to-end simulation of TL with a bigger emittance beam from the source (50% higher?)		edit

Assigned to	Start date	Description	State	Result
Main.BDgroup	2008-11-27	Study tilt distribution of DTL gap errors		edit

Assigned to	Start date	Description	State	Result
Main.BDgroup	2008-11-27	repeat CCDTL gap errors after tilt correction (without levelling field peaks)		edit

Assigned to	Start date	Description	State	Result
Main.BDgroup	2008-11-27	Repeat error studies for the whole linac in one go		edit

Assigned to	Start date	Description	State	Result
Main.BDgroup	2009-01-22	Study possibility of beam intensity modulation in ppm by changing quadrupoles strength in the chopper line		edit
