

Result from PMQ request

Dear all,

I just looked again at the offer we have from Vacuumschmelze: dia 7.5mm x length 40mm magnetized VACOMAX 225 HR (Sm₂Co₁₇) 900 pieces at 6.95 EUR per piece ~12 weeks lead time after receipt of order. From their data-sheet I find Br=1.1T (nom.)

Materials for Br=1.2T seem to be equally available from other suppliers.

A price from ChenYang Technologies (Germany) is 4.14 EUR per piece for >1000 pieces (dia 8mm x 40mm) with Br=1.03T (nom.)

Suitbert
