## SPL

- R&D budget of 3MCHF/year
- Next week SPL collaboration meeting together with ESS in Lund. [Indico](#)

## Test of RF structure meeting

- Tests will take place in SM18
- First Linac4 (2011-2012) , SPL afterwards
- 50Hz modulator from ESS in 2012
- Rolf will coordinate the installations needed in SM18

## SM18

- Modulator from India (prototype) will be installed and replaced later with Linac4 modulator

## DTL

- Anodizing not compatible with vacuum.
  - ◆ Replace aluminum holder with stainless steel
  - ◆ Gold / nickel flashing under investigation

## PIMS

- Measurements:
  - ◆ 3 different setups used
  - ◆ Vacuum test next week
- Drawing for T almost finished
- Construction of short is progressing
- Simulations:
  - ◆ Finished simulation on module 11, 12
  - ◆ Finish simulation of 2 modules per week

## HOM

- Simulation of HOM impact comparing 704MHz and 1300MHz cavities for ESS
