

Open Actions, RF structures

Assigned to	Start date	Description	State	Result
MatteoPasini, RolfWegner	2007-07-27	perform X-ray measurements on the CCDTL prototypes at different locations for different duty cycles		edit
SuitbertRamberger	2007-07-27	re-calculate the drift tube shapes for the DTL prototype, so that the tuners provide ± 0.5 MHz tuning range		edit
FrankGerigk, NaderAlharbi	2007-08-22	put drawings of DTL cold-model into CDD (restricted access!!)		edit
MatteoPasini	2007-08-22	try to flatten the field in one CCDTL cavity, e.g. by opening up the centre gap		edit
NaderAlharbi	2007-11-02	use field patterns of the stem mode (from microwave studio) to compare with measurements on the cold model		edit
