Introduction

Non official information on ATLAS groups with their topic ... work in progress.

Depending of the "sensitivity" of the groups their membership could be "aligned" with the membership of few reference groups.

- a-r-c-p (atlas-readaccess-current-physicists).
- a-r-c-p + a-e-c (atlas-readaccess-current-physicists "plus" atlas-external-computing).
- a-r-a-m (atlas-readaccess-active-members).
- a-r-a-m + a-e-c (atlas-readaccess-active-members "plus" atlas-external-computing).
- a-r-a-m + a-e-t (atlas-readaccess-active-members "plus" atlas-external-technical).

Groups for which the membership would be aligned to "a-r-c-p".

----- If applied the following members would be removed from the Groups.

Groups for which the membership would aligned to "a-r-c-p plus a-e-c".

----- If applied the following members would be removed from the Groups.

Groups for which the membership would aligned to "a-r-a-m".

----- If applied the following members would be removed from the Groups.

Groups for which the membership would be aligned to "a-r-a-m + a-e-c".

----- If applied the following members would be removed from the Groups.

Groups for which the membership would be aligned to "a-r-a-m plus a-e-t".

----- If applied the following members would be removed from the Groups.

Groups for which the membership is not checked because the.

To get some ideas on the situation of the membership of these groups a comparison has been done with "a-r-a-m plus a-e-c plus a-e-t".

For the time being a **cleaning is not considered**.

----- If applied the following members would be removed from the Groups.
