```
# Select muons above a pt threshold and  
# create an output muon container only with the selected muons  
algseq += CfgMgr.ParticleSelectionAlg ( "MyMuonSelectionAlg",  
                                         InputContainer      = "Muons",  
                                         OutputContainer    = "SelectedMuons",  
                                         Selection            = "Muons.pt > 15.0*GeV"  
                                         )
```
