CERN Football Club

How can I participate in club activities?

Just register yourself in the club-football e-group (and the womens-football-team e-group) and you will start receiving emails with all ongoing activities.

There is usually plenty of options to play football, indoor futsal, internal and external tournaments, etc. But these activities change from year to year. Everything is communicated over the e-group, so you can also check in the archive the latest activities.

You are welcome to participate for free 2 times. Afterwards, remember the participation fee.

Everyone is welcome, there are activities for all kind of players, from experienced to new players, there are competitive activities and we also play just to have fun with friends.
