

Question

Hi,

Some time in the last week we can no longer edit our existing actions.

e.g. on [WlwgOsgEgeeOpsMeetingMinutes#Open_Action_Items_from_Operation](#)

the "edit" buttons no longer work and also the format of the action lists has changed with a drop down box which was not there before.

Did something change your side? I've looked through a little bit to see if we have any ill formatted actions.

This looks to be the same problem.

Answer

⚠ If you answer a question - or have a question you asked answered by someone - please remember to edit the page and set the status to answered. The status is in a drop-down list below the edit box.

The new version of ActionTrackerPlugin , 16778 (07 May 2008) had a corrupt edit template as noted here. I restored the template from a previous version. It seems to have done the trick.

-- PeterJones - 20 Nov 2008 No such template def `TMPL:DEF{PROMPT:supportquery}`
