

Question

Hello,

I use comment plugin in my topic to allow visitors to add comment, but which is constraint to only authorized users (registered and login users). Can I allow twiki guest (not twiki user) to add comment?

Thanks

ChengguangZhu

Answer

No, anonymous editing is not allowed in TWiki at CERN and is against the CERN computing rules. (You can of course allow them to remove the signature, but the action will remain tracable.)
