

Question

Hi,

since yesterday, we cannot attach files to TWikis anymore. The error message is: "Either you did not specify a file name, or the file you are trying to upload 120515-WZ-tagging_systematic.pdf has no content. You may not upload an empty file."

It must be related to the update which includes the possibility to attach multiple files.

We tried these TWikis: <https://twiki.cern.ch/twiki/bin/view/CMS/PFlowAnalysisFullHadronicVV2011QA>

<https://twiki.cern.ch/twiki/bin/view/CMS/DatasetDefinitionTeamSkims>

And these Browsers

Firefox

Safari
