

Question

Is there a way I can change the link colour of new empty topics? I ve found a relevant variable in the normal twiki implementation, (Set NEWTOPICFONTCOLOR) but it doesn't work!

Environment

Web Browser:	chrome
User Location:	Internal
Categories:	Missing functionality, Skin

Answer

⚠ If you answer a question - or have a question you asked answered by someone - please remember to edit the page and set the status to answered. The status is in a drop-down list below the edit box.

The new link colour is hard coded. Following tests I see that changes to the setting NEWTOPICFONTCOLOR don't work.

I will investigate further options.
