

## Question

How can I move a twiki page (or group of pages) from the sandbox area to the live area of the twiki? Obviously I can move the text and formatting with cut and paste but I also want to move attached files and linked topics.

Thanks

## Answer

**⚠ If you answer a question - or have a question you asked answered by someone - please remember to edit the page and set the status to answered. The status is in a drop-down list below the edit box.**

You can move a TWiki topic by selecting "More topic actions" and then "Rename/Move" as indicated in the FAQ: DeleteOrRenameATopic
