

Question

Hi,

I have created two TWikiGroups in

<https://twiki.cern.ch/twiki/bin/view/Main/TWikiGroups>

which I don't need anymore so I would like to remove them.

Simply removing the topic from the group edit page does not help.

How can a group be deleted?

Thanks

Antonio

Answer

▲ If you answer a question - or have a question you asked answered by someone - please remember to edit the page and set the status to answered. The status is in a drop-down list below the edit box.

I have never had to delete a group but as with the structure of Twiki everything is a topic then I would suppose that the group would be dealt with just as any other topic. To delete a topic we can move it to the Trash.

On the bottom of every page there is a links to 'more topic actions'. From here the file can be moved to the Trash web. Try this and let me know how you progress.
