

Question

Hi, would it be possible to use the ReStructuredText (RST) format inside the CERN twiki? There RST is very capable and have many "transformers" to other languages, so it would be useful.

Cheers, Federico

Answer

⚠ If you answer a question - or have a question you asked answered by someone - please remember to edit the page and set the status to answered. The status is in a drop-down list below the edit box.

There is a reStructuredText [plugin](#) available but its quite old and may no longer be supported (need to check). Remember there is always a WYSIWYG editor available too
