

NOP -- template text not to be expanded in instantiated topics

- Syntax: %NOP%
 - ◆ In normal topic text, expands to <nop>, which prevents expansion of adjacent variables and wikiwords
 - ◆ When the topic containing this is used as a template for another topic, it is removed.
 - Syntax: %NOP{...}% **deprecated**
 - ◆ In normal topic text, expands to whatever is in the curly braces (if anything).
 - ◆ **Note:** This is deprecated. Do not use it. Use %STARTSECTION{type="templateonly"}% .. %ENDSECTION{type="templateonly"}% instead (see TWikiTemplates for more details).
 - Related: HIDE, STARTSECTION, TWikiTemplates
