Wiki Name.....	1
----------------	---

Wiki Name

Your name, usually your first and last name connected without a space.

For example, Tim Berners-Lee's WikiName is TimBernersLee.

 Your name is also a potentially valid WikiWord when used within a topic. However the profile pages of registered users on this site are stored in the **Main** web. When you sign your username in a topic, prefix it with `Main.` (including the dot). That is, write `Main.TWikiGuest` to link to TWikiGuest, your personal profile page in the Main web. For convenience, your signature is also provided for copying and pasting when editing a topic.

 Though rarely used in common practice, you can use the special `%USERSWEB%` variable prefix for user names, for example, `%USERSWEB%.TWikiGuest`.
