

Project overview

Successful builds

at 15 October 2011

Number of successful components, components failed with all dependencies successfully built (error in the component) and components failed with some failed dependencies (build failed may be caused by the dependency not building). There are a number of causes to a failing build, it can be errors in the code, faulty configurations or changes in the project level environment.

Untouched high priority feature requests

submitted before 7 October 2011

This chart shows untouched feature requests, requests that were submitted for more than two weeks and are still not assessed, remaining with an "open" status. The assessment of a bug should trigger a transition of its state to "Accepted" or "Rejected". Check <https://twiki.cern.ch/twiki/bin/view/EMI/EmiSa2ChangeManagementGuidelines> for more details.
