

Samuel Chigome is a Senior Researcher in the Nanomaterials Division at the Botswana Institute for Technology Research and Innovation (BITRI). In 2012 he received his PhD in Chemistry from Rhodes University, South Africa. Samuel is the President of the African Materials Research Society (AMRS), member of the International Advisory Board of the State Key Laboratory for Modification of Chemical Fibers and Polymer Materials (SKLFPM) at Donghua University, member of the Editorial Advisory Board of ACS Nano.

Samuel's primary research interests are in electrospinning, conversion of abundant natural resources into nanomaterials and water filtration.
