Faculty and research positions for experimental particle physics in Hong Kong

Groups from the Chinese University of Hong Kong (CUHK), the Hong Kong University of Science and Technology (HKUST), and the University of Hong Kong (HKU) have formed the Joint Consortium for Fundamental Physics in Hong Kong, and intend to join the ATLAS experiment at CERN as a cluster. Start up funding, faculty and postdoctoral positions, as well as some graduate student quotas have been secured from the three universities. The cluster is expected to begin with one senior faculty, three junior faculties (1 assistant professor and 2 research assistant professors), one to two postdoctoral fellows, and three to six graduate students.

We invite applications for the following positions in experimental particle physics:

CUHK: 1 tenure-track assistant professor and 1 postdoctoral fellow;

HKU: 1 research assistant professor and 1 postdoctoral fellow. Subject to funding approval, the research assistant professor at HKU may be upgraded to a tenure-track assistant professor position;

HKUST: 1 research assistant professor.

The hires from HKU, CUHK and HKUST will be coordinated by representatives from all three institutions. Efforts will be made to encourage cohesion in research interests among the appointees of the Hong Kong ATLAS cluster.

Starting salary will be commensurate with qualifications and experience. Fringe benefits including annual leave, medical and dental benefits will be provided.

For further information, please contact Prof. M.-C. Chu mcchu@phy.cuhk.edu.hk.

Application Procedure

Please apply online for

CUHK: https://academicjobsonline.org/ajo/jobs/2498 for the assistant professor position, send CV to mcchu@phy.cuhk.edu.hk for the postdoctoral position;

HKU: send CV to Prof. K.S. Cheng via email: physhead@hku.hk;

HKUST: https://academicjobsonline.org/ajo/jobs/2468.

Review of applications will begin on 1 January 2013 and will continue until the positions are filled.
