Dear colleagues,

Please see the advertisement below for two staff positions at IHEP, Beijing. I would be happy to answer any questions you might have about the position.

Merry Christmas and Happy New Year! Mingshui Chen

Staff positions at the Institute of High Energy Physics (IHEP), Beijing to work on the CMS experiment

The Institute of High Energy Physics (IHEP), Chinese Academy of Sciences (CAS) invites applications for two staff positions under the Pioneer “Hundred Talents Program” of CAS, to work on the CMS experiment at the Large Hadron Collider at CERN.

The IHEP CMS group presently consists of 10 staff members, 8 postdoctoral researchers, and graduate students. The group has contributed significantly to the Endcap Muon System, and now involves in the Endcap Calorimeter upgrade and L1 trigger upgrade projects. The group has also strong participation in a variety of physics analyses.

Applicants for the staff positions will be expected to play a leadership role on the physics analyses at the CMS experiment. Applicants are required to hold a Ph.D. in physics, and should demonstrate a strong research record that includes at least two years of postdoctoral work in experimental high-energy physics, the potential for independence and leadership in a high-energy experimental group. The doctoral degree should be conferred within five years when the application is made.

We are flexible as to whether the applicants will be based at CERN or Beijing.

Direct link to the Pioneer “Hundred Talents Program” is [http://english.ihep.cas.cn/ju/201606/W020160629534819554140.pdf](http://english.ihep.cas.cn/ju/201606/W020160629534819554140.pdf)

Questions about the position may be addressed to Dr. Mingshui Chen (chenms@ihep.ac.cn).

Interested candidates should submit their application, including curriculum vitae with publication list, and a statement of research interests, and arrange to have three letters of reference sent by email to chenms@ihep.ac.cn. The review of applications will begin on February 10, 2017, however the search will remain open until the positions are
filled.
