LIP-Lisbon invites applications from candidates for postdoctoral researcher positions in the CMS experiment at the CERN LHC.

The fellowships are granted by the Portuguese funding agency FCT (Fundacao Ciencia e Tecnologia). The candidates pre-selected by LIP should enter the application at the FCT site before the deadline 19 September. http://www.fct.pt/apoios/bolsas/concursos/individuais2013.phtml.en

The appointment is for three years renewable for a second term of three year. The position is based in Lisbon. Qualifications required include a PhD and a clear demonstration of the ability to carry out a research program.

The LIP/CMS group is very active in top, Higgs, SUSY and quarkonia physics exploiting the discovery opportunities offered by the LHC. The group has also important responsibilities in the operation and monitoring of the CMS electromagnetic calorimeter and L1 Trigger, and is participating in the Upgrade of the Trigger System.

Applicants should send the CV, including a statement of physics interests, and three recommendation letters to:
Natalia Antunes
Email: natalia@lip.pt (Cc. joao.varela@cern.ch )
LIP, Av.Elias Garcia, 14, 1000-149 Lisbon, Portugal
