There are positions open at Texas A&M as described below. Please communicate with possible candidates and encourage them to apply.

Texas A&M University is looking for two people to join our computing group, in particular to work on the Brazos Cluster (http://brazos.tamu.edu/) which does Grid Computing for the CMS group. People with experience in collider physics and an interest in computing would be strongly considered.

The 2 positions are:

Senior Systems Analyst I
N.O.V. Number: 120482
Quick Link:
