The HEP group at the University of California, Santa Barbara invites applications for a postdoctoral position on CMS. Candidates for the position should have a PhD or equivalent degree in Physics and have demonstrated excellence in high-energy physics research or a closely related field.

The successful candidate will join our efforts in searches for Supersymmetry with current CMS data and plan strategies for upcoming data. There is also an opportunity for involvement in detector R&D.

Candidates should send a statement of interest and CV, and arrange for at least three letters of reference to be sent to David Stuart by email at stuart@physics.ucsb.edu.

The position is available until filled, but for full consideration, applications should be received by Oct. 31st, 2012.

The University of California is an equal opportunity/affirmative action employer.
