

Minutes of ESnet::PET Meetings

6/13/14

Attending

Michael, Andrey, Ken, Greg

Agenda

<https://indico.bnl.gov/conferenceDisplay.py?confId=801>

Notes

Organizational Matters

- Greg Bell the only ESnet participant, because other team members returning from second round of contract negotiations with our European partner in Amsterdam.

Status of EEX planning and activities

- Discussion of cyber-security implications of optical platforms supporting transatlantic circuits.
- Very good progress on SOW and T/C negotiation with European partner.
- Agreement on all concepts - now drafting final language.
- Initiating procurement of routing gear (approved in LBNL financial system).
- Working through collocation contract Ts & Cs with CERN.
- Working on SOW for all TA circuit procurements.
- Have initiated periodic transition meetings w/ USLHCNet.
- Beginning analysis of when those circuits would be terminated.
- Still working on scheduling DC event for announcement.

Actions

1. ESnet will brief on provisional schedule at next meeting [done].
2. Greg will investigate use of ANA-100G circuit for earliest 100G access to CERN [done].
