

Status of γ -hadron correlations analysis

Astrid Vauthier

May 27, 2015

Done

- ▶ Invariant mass study
- ▶ Efficiency in away side
- ▶ Implementation of the code for final x_E distribution for isolated photons

To be done

- ▶ End up with efficiency in UE (fit or not)
- ▶ Finish the check for Julien's purity note
- ▶ Write the x_E note
- ▶ Some check for efficiency (should be very quick, material is here)
- ▶ Understand problem with AddTask for PbPb simu
