

## Minutes of the LIM meeting, Dec 14, 2006

Present: Emil Obreshkov (ATLAS), Florence Ranjard (LHCb),  
Andreas Pfeiffer (SPI)

Apologies: Vasily Kabachenko (ATLAS), David Quarrie (ATLAS),  
Shahzad Muzaffar (CMS), Stefano Argiro (CMS),

### Actions:

-----

A new configuration (LCG\_49) is in preparation, using the production release of ROOT (5.14.00, planned to come out tomorrow). If things go well, LCG\_49 will be released before the xmas shutdown.

Work on setting up a nightly build system for LCG AA projects is progressing and concentrates on the porting to the win32 and osx104 platforms. GAUDI has been added to the nightlies to allow a seamless integration with LHCb and Atlas builds.

The compat32 package which allows development and building of IA32 binaries on an AMD64 platform is set up in AFS external.

### New issues:

-----

No new issues were brought up.

Seasonal greetings !

Next meeting: Jan 11, 2007, 11:00.

-----

### Action items:

new and outstanding:

- \* discuss with Pere and the projects the "insertion" of scram-v1 buildfiles once the move to CMT is done. (Maintained by CMS members in the projects)
- \* set up web page to request creation of binaries for configuration/platforms
- \* check lcg-installation-manager.py to download each package only once.
- \* prepare and circulate list of all external packages for review
- \* create "LCGAA" pseudo-package for lcg-installation-manager.py to download the binaries of a related set of releases in one go.
